

## District One Northern Region – Watchwords

**Empower:** By creating an environment that features a just culture as well as the opportunity for members to learn new skills, earn professional qualifications, and develop meaningful relationships through teamwork and volunteer service we will empower our membership to reach their personal best possible performance.

**Preparedness:** In the spirit of “Semper Paratus” we will continue to maintain the qualifications and skill sets necessary to fulfill the traditional missions of the Coast Guard Auxiliary while we continue to identify and prepare for new and emerging needs challenges and needs.

**Resourceful:** The Coast Guard Auxiliary has great resources, many of which go unused due to the challenges of accurately identifying these resources or the organization’s need and then matching an available resource with an appropriate need for services. We will meet this challenge by assisting the membership in the proper use of the available Skills Bank, and by conducting a district wide Gap analysis.
